

Device Management System (OOP42-DS)

DESCRIPTION/PARAUTILITY:

The object is a [REDACTED] hosted on [REDACTED] and accessible over the [REDACTED] internet at [REDACTED] and via [REDACTED] as dontpanic.xyz.

The object creates [REDACTED] (see documentation and [REDACTED] for more details). The only [REDACTED] to successfully produce this effect resulted in the enrollment of [REDACTED] in addition to [REDACTED] (see [REDACTED] presentation at [REDACTED] and [REDACTED] for more details).

Object has not been successfully bound. The parautility of this object does not require binding. This object cannot bind Active Directory or [REDACTED] without connection to [REDACTED].

CONTAINMENT PROCEDURE:

[REDACTED]

BACKGROUND:

Discovered when the Bureau responded to [REDACTED] with visible [REDACTED] output of [REDACTED] (see AWE-42 case file for more information).

Many of the accompanying [REDACTED] were [REDACTED] (see files on [REDACTED] and [REDACTED] for details). The entirety of the [REDACTED] was cloned to the Bureau for examination, to find additional [REDACTED] or other altered materials.
